SINGER

Scholastic™

The Singer 85SCH Scholastic heavy duty mechanical sewing machine is a true workhorse. With a heavy duty metal interior frame, stainless steel bed plate, extra-high sewing speed and powerful motor, the SINGER Scholastic sewing machine can sew through just about anything you throw at it. Convenience features including an automatic needle threader, top drop-in bobbin, fully automatic 1-step buttonhole and drop feed for free motion sewing adds a new dimension of ease to heavy duty sewing. 32 built-in stitches including basic, stretch, decorative and a buttonhole make this machine perfect for both practical and creative projects.

Heavy Duty Features Power Through Projects

Heavy Duty Metal Frame

The internal skeleton of the sewing machine consists of a Heavy Duty Metal Frame that holds all the mechanisms in perfect alignment for skip-free sewing and overall durability. You can be sure that your sewing machine will last for years of extended use.

Extra-High Sewing Speed

With a sewing speed of up to 1,100 stitches per minute, you can finish projects in less time than a conventional sewing machine.

Stronger Motor

Boasting a stronger motor than conventional sewing machines, the SINGER Scholastic sewing machine sews through heavy duty fabric without a hitch!

Extra-High Presser Foot Lifter

Offers more clearance when sewing multiple layers of bulky fabric.

Adjustable Presser Foot Pressure

Adjustable presser foot pressure allows you to adjust the amount of pressure exerted on your fabric while sewing. The pressure is optimally pre-set, but feel free to override those settings for high pile fabrics or delicate fabrics like chiffon.

Free Arm Convertible

The removable free arm provides easy access to cuffs, collars, pant hems and other difficult-to-reach areas.

Stainless Steel Bed Plate

The unique bed plate ensures smooth fabric feeding for even sewing.

Automatic Settings Eliminate Guesswork

Automatic Tension

Ensures stable straight stitch quality regardless of the type of fabric.

Easy Stitch Selection

With the easily accessible stitch dial you can change stitches in one easy step!

Automatic Bobbin Winding System

Simply follow the numbered diagram printed on the sewing machine and your bobbin is full in no time! The needle bar automatically disengages when winding the bobbin, making bobbin winding safe. The bobbin will automatically stop turning when the bobbin is completely filled. Never worry about overfilling a bobbin!

LED Sewing Space Light

The LED Sewing Space Light keeps your workspace illuminated.

Easy Threading with Automatic Needle Threader
Sewing's biggest timesaver easily threads the needle without eye strain.

Top Drop-In Bobbin System with Clear View Cover
The bobbin is easily loaded from the top. The clear cover makes it easy to monitor bobbin thread supply.

Drop Feed with Box Feed Motion

Lower the feed dogs for free-motion embroidery, monograms and for sewing buttons. The seven-segment feed dogs move in a box motion ensuring perfect feeding throughout the entire feed process.

Three Needle Positions

Provides more control of stitch placement. You can set the needle to one of three positions, which is great when inserting zippers or cording and topstitching.

Unleash Your Creativity

Adjustable Stitch Length and Width

With just the simple turn of a dial the length and width are customized. Select the right size satin stitch for your appliqué in no time! When using the zigzag stitch to appliqué, the Center ZigZag taper tapers to the center, not the left or right, leaving you with attractive appliqués. Stitches can be set for a maximum of 6mm, perfect when using those satin stitches for appliquéing.

6mm Stitch Width

Most stitches can be set for a maximum width of 6mm creating attractive satin and decorative stitches.

Twin Needle Capable

When sewing with a twin needle (optional purchase), parallel rows of stitching are perfect for hemming or adding a decorative touch. Just reduce the stitch width on selected stitches and twin needle sewing expands your creative possibilities.

Women's Choice
SINGER has won the 2013 Women's Choice Award for America's Best Home Sewing Machine!

Consumer's Choice - More people own SINGER machines than all other brands combined!

The SINGER 850SCH Scholastic serger overlock boasts 4, 3 or 2 thread sewing capability for more stitch variety including four built-in rolled hem stitches. Save time on clothing construction by sewing and finishing seams at the same time—just like the professionals. Sewing 1,300 stitches per minute allows you to zip through your projects in no time. Enjoy sewing one-of-kind creations with the special effects of decorative stitching with flatlock and rolled hem stitch options. The color coded threading system with diagram makes for easy set-up!

4-3-2 Thread Capability

The 6 different stitch types ensure the perfect stitch, regardless of the project: Blind Hems, Rolled Hems, Flatlocking, finishing raw edges and sewing seams.

Differential Feed

Fully adjustable to ensure even feed for perfect seams on every fabric—no breaking or puckering. It is also useful for keeping stretch fabrics and bias-cut fabrics from becoming stretched.

Color-Coded Threading System

With complete, easy-to-read diagrams, this feature makes threading a snap. Just follow the color-coded diagram on the machine for simple threading.

Adjustable Thread Tension

Adjust the thread tensions with the one-turn numbered tension dials. Adjustable tension ensures that your stitches are balanced and even.

Adjustable Stitch Length & Width

Keep seams strong and prevent bunching on any fabric type.

4 Built-In Rolled Hems

More hem options, especially for lightweight fabrics. Converting to the Rolled Hem sewing mode is effortless. An easy access lever moves the stitch finger in position for rolled hemming.

Free Arm

Allows for easy access to cuffs, sleeves and more!

Extra-High Sewing Speed

Sewing at 1,300 stitches per minute allows you to tackle projects in no time!

Extra-High Presser Foot Lifter

Offers extra clearance needed when placing multiple layers of fabric under the presser foot.

Moveable Upper Knife

Can easily move knife to prevent trimming of fabric while sewing.

Electronic Speed Control

Guarantees consistent sewing speed with no jump starts.

Portable

Built-in carry handle makes it easy to take your serger to class with you.

25-Year Limited Warranty

25-year manufacturer's defects, 2-year electric and electronic components, 90-day parts and labor

What's In The Box

Included Accessories

All Purpose Foot (on machine), 4 Spools of Thread (on machine), Needle Set, Tweezers, Spreader, Screwdriver, Power Line Cord, Foot Control, Instruction Manual

Value Added Accessories

Beading Foot, Overlock Instructional DVD

4-3-2 Thread Capability

32 Built-In Stitches Hundreds of Stitch Functions

4 Built-In Rolled Hems
Add an elegant fine finish to table linens, scarves and more

6 Essential Stitches
The core stitches of construction and mending.

Overlock Stitches
Provides a wonderful professional seam finish, helps prevent loosely woven fabrics from unraveling, and offers unlimited decorative capabilities.

7 Stretch Stitches
Specially designed to move with your fabric.

Flatlock Stitches
Special decorative threads can be used to add texture and a dramatic embellishment effects.

18 Decorative Stitches
Create special details on any project.

Mock Safety Stitch
A favorite when sewing a knit fabric because the stitch stretches as the fabric stretches providing a strong and professional finish that will not "pop" when the fabric is stretched.

1 Fully Automatic Buttonhole
Buttonhole sewing is a fully automatic one-step simple process providing reliable results every time.
