## PuraSleep Mattress Topper Care and Use Tips

- We recommend rotating and flipping the topper on a monthly basis.
- When moving the topper be sure to lift it up as much as possible to avoid pulling or dragging as this may cause tearing.
- PuraSleep mattress toppers comply with all Flammability Requirements for bedding. However, polyurethane foam is flammable and care should be taken when heating pads, electric blankets and space heaters are in use.

## PuraSleep Mattress Care and Use Tips

- Use a firm, flat surface to support the mattress. You can use the floor, a slatted base (with closely placed slats), a platform bed, or a good quality solid box spring. Avoid supports that give or sag.
- Support your PuraSleep mattress and foundation with a frame that provides rigid center support as well as support for the head, foot and sides.
- If it becomes necessary to clean the zippered, 2-part removable cover:
  - **Cover Top:** Machine wash separately in cold water, cool rinse delicate cycle using mild detergent. Do not bleach. Do not use any fabric softeners. Tumble dry low heat. Remove from dryer immediately to avoid wrinkling. For best results remove while slightly damp and hang to dry.
  - **Cover Bottom:** Do not wash or dry clean non-skid bottom.
- Your PuraSleep mattress has a top side so flipping isn't required. Simply rotate the mattress periodically keeping the top side up.
- When moving the mattress we recommend standing the mattress on its long side to help prevent it from folding. Do not bend or fold, stand or jump on the mattress as damage can occur.
