

ELWL-DA10C

LED AC/DC Portable Worklight

Energetic Lighting's LED dual voltage portable worklight provides an energy efficient alternative to traditional high-wattage halogen worklights. This versatile worklight can operate in a traditional 120 Vac wall outlet, or be carried in a vehicle and powered using a 12 Vdc socket adapter. Operating at only 10 watts, while outputting plenty of light, the worklight housing stays cool to the touch. With LED as the light source, the housing profile reduces down to a slim and compact shape making this worklight easy for storage and setting up in tight spots. With a durable die-cast aluminum construction and an LED lifetime rating of at least 30,000 hours, this heavy-duty worklight is designed for many years of reliable operation.

Features

- No UV or IR radiation
- Elegant and efficient design
- Mercury-free construction
- Suitable for Damp Location use

Applications

- Automotive
- Construction and building projects
- Spot area lighting
- Tight, space-limited areas

Specifications

General	Model:	ELWL-DA10C
	Lumen Output:	700 lm
	Luminous Efficacy:	70 lm/W
	Cord Length:	5 ft (AC cord); 16 ft (12V DC cord)
	Equivalent Incandescent Wattage:	40 W
Electrical	Input Power:	10 W
	Input Voltage:	120 Vac or 12 Vdc Vac
	Power Factor:	≥95%
Color	CCT:	4000 K
	CRI:	≥80
Operational	Lifetime:	30000 hours
	Warranty:	5 Years
	Dimmable:	No
	Operating Temp:	-4°F to 122°F
	Environment:	Damp Rated
	Weight:	2 lbs
Dimensions:	7.0in.(W) x 8.5in.(H) x 2.0in.(d)
